

Llangadog, Llandeilo & Llandovery Mens Shed 02

Corona Virus

Presently we are looking for any interest within Llangadog, Llandeilo, Llandovery and the surrounding area for a Mens Shed. We are restricted on what we can do at present due to Covid 19 but it doesn't stop us recruiting shedders. If you know of anyone who might be interested then forward this newsletter on to them. The more shedders the merrier!

Premises

Finally things have started to move forward. The large skip has arrived and we have worked hard clearing the first shed ready for its renovation as you can see in the photos.

Most of the gardening equipment found while clearing the shed has now found a new home in one of the greenhouses. A lot more will be joining it eventually from shed 2

Greenhouses

News

It is our ambition to update and send this newsletter to all members at least once a week as things progress with the sheds so that you can feel part of the process even though you cannot attend at present. It will show the progression of work on the sheds and anything else of interest. If you wish to contribute an article then please do so.

The skip has finally arrived and good job its a big one. It took 3 days to clear the first shed. It's amazing what you collect over a lifetime just in case it's useful, but it rarely is. Next, the second shed will get the same treatment and hopefully by that time the first shed renovation will have started. The roof of the first shed will be extended about 6 foot making a covered area at the front for sitting and discussing projects or putting the world to rights in the sun. The delivery of log cladding, insulation, slates, lots of wood in various sizes as well as some windows & doors is expected early next week. Keep your fingers crossed!

We have several new members since the last newsletter and the list below will be updated whenever a new member joins. It is important that we keep in contact with all members to ensure everyone stays healthy and safe.

The sheds will be available initially from 10am to late Monday to Friday. Depending on our shedders needs but this can change accordingly. Any ideas & suggestions are welcome.

Shedders (**Please promote the shed**)

Zoom Video Conferencing

Sorry, not much progress on this as we have been busy with the shed renovation. Perhaps one of our members would like to take on this project? All the contact details required are above. This would be a good way of getting to know each other virtually before we actually meet up and also to discuss the future direction of our LLL Mens Shed.

Projects Suggested To Date

Gardening
Wood Working
Computers
3D Printing
Motorbikes
Quad Bikes

Looking at the suggestions to date perhaps have one shed as a workshop for wood working or motorbikes and the other for cleaner projects like 3D printing or electronics.

All ideas are welcome - Whats your **passion**???
